

Press release

May 2025

Agfa prepares to unleash unbridled potential at FESPA 2025 with the Jeti Bronco H3300 S

Agfa, a global leader in inkjet printing technology, will demonstrate the power and agility of the Jeti Bronco H3300 at this year's FESPA Global Print Expo. Built for sign shops and digital printers seeking to master diverse applications, this 3.3-metre workhorse combines durability with breathtaking quality – proving that true innovation runs wild.

Saddle up for high performance printing

With speeds up to 248 m²/h (2,669 ft²/h) and a six-colour plus white ink configuration, the Jeti Bronco H3300 delivers vibrant, high-definition prints on both rigid and flexible media. Its UV LED curing technology broadens horizons, enabling flawless results on heat-sensitive materials like thin foils, PET, and microflute while slashing energy consumption.

Gallop into success

The Jeti Bronco's relentless efficiency mirrors the agility of its namesake. Dual-roll printing up to 1.6 metres wide, and continuous board feeding for up to four rigid sheets simultaneously help to minimise post-processing and keep your pressroom moving at pace.

- **Hybrid versatility:** Seamlessly switch between roll media and rigid substrates without breaking stride.
- **Industrial endurance:** Engineered for 24/7 workloads with automated ink management and RFID-tagged ink bottles for error-free refills.
- **Eco-conscious precision:** GREENGUARD Gold-certified inks ensure vibrant, more sustainable prints with a wide colour gamut.

Tame the wildest applications

From backlit displays to vehicle wraps, the Bronco's pre- and post-white capabilities in a single pass ensure opacity and depth on translucent or coloured media. Integrated Asanti workflow software orchestrates every detail, harmonizing prepress and

production for unmatched consistency.

Philip Van der Auwera, Product Manager Sign & Display at Agfa said: “The Jeti Bronco embodies the untamed spirit of innovation. Its blend of industrial reliability and hybrid flexibility lets printers roam new markets – whether producing exhibition graphics on uncoated boards or intricate designs on delicate textiles. And it’s built to evolve alongside your ambitions.”

Discover how the Jeti Bronco H3300 can help your business roam further at Agfa’s FESPA stand. Visit Agfa at Hall 27 (D60 and D70) at FESPA Global Print Expo 2025 to discover how this machine can support you to outpace the competition.

Notes to editors

About Agfa

The Agfa-Gevaert Group is a leading company in imaging technology and IT solutions with over 150 years of experience. The Group operates through three divisions: Radiology Solutions, Healthcare IT, and Digital Print & Chemicals. They develop, manufacture, and market analog and digital systems for the healthcare sector, for specific industrial applications, and for the printing industry. In 2024, the Group achieved a turnover of € 1,138 million.

About Agfa’s Digital Printing Solutions

Agfa’s Digital Printing Solutions aims to advance the use of inkjet printing technology across diverse industries, helping businesses become more versatile, efficient, and sustainable. By understanding the unique needs and challenges of each sector, Agfa partners with its customers to deliver innovative printing solutions.

Agfa offers a comprehensive range of high-quality inkjet printers, inks, software, and services. These products can be provided as fully integrated solutions or as customized components within larger production workflows, ensuring exceptional quality, productivity, and cost-effectiveness. With global service and support, Agfa helps businesses achieve outstanding printing results and drive growth.
