

Press release

October 2025

**Agfa empowers innovation with inkjet showcase and Jeti Bronco H3300 HS debut at PRINTING United Expo 2025**

**Mortsel, Belgium – Agfa, a global leader in inkjet printing solutions, will demonstrate the very latest in high-performance digital print technology at PRINTING United 2025, including the global debut of its Jeti Bronco H3300 HS.**

PRINTING United 2025 marks first chance for printers to discover the **Jeti Bronco H3300 HS**, a versatile 3.3-meter hybrid printer designed for robust performance and supreme flexibility.

This showpiece will stand alongside other advanced solutions, including the **Onset Panthera FB3216**, **Jeti Tauro H3300 XUHS** – Agfa’s fastest and most advanced multi-pass printer – and the compact **Anapurna Ciervo H2500**.

Agfa’s interactive booth will feature live demonstrations, specialist focus zones outlining the brand’s sustainability strategy, and expert insights into application-specific solutions such as ‘No Warp, No Worries’ for corrugated cardboard printing. It will also highlight the high-speed, water-based **SpeedSet Orca** press, revealing new possibilities for fast-turnaround, high-quality work.

Vincent Wille, President DPC at Agfa, commented, “North America is a strategic market for Agfa, and PRINTING United offers the ideal platform to showcase how our presses and technologies redefine potential for print service providers. With award-winning flatbed and hybrid solutions, next-generation automation, and intelligent workflow software, our mission is to help customers increase productivity and sustainability while unlocking exciting new applications.”

Agfa’s booth at PRINTING United will feature the **Onset Panthera FB3216** – a true flatbed powerhouse equipped with an autoloader and unloading robot for optimal throughput. This Pinnacle Product Award winner delivers sharp quality and high-volume

versatility at speeds up to 1,514 m<sup>2</sup>/h, making it a go-to solution for POS, retail graphics, and corrugated applications.

Attendees can discover the ultimate multi-pass printer in the **Jeti Tauro H3300 XUHS** with MAX Bot Feeder and Flex RTR system. Running at speeds up to 1,280 m<sup>2</sup>/h, this is Agfa's fastest multi-pass printer that dominates the arena. With robotics and advanced automation, this hybrid press streamlines high-volume print runs with unmatched efficiency.

The **Jeti Bronco H3300 HS** debuts at the expo, bringing optional media feed guides to support corrugated board and thin media printing, safeguarding against warping and boosting output. UV LED curing and a seven-color plus white ink set – including neutral gray balance technology – deliver accurate grayscale tones and smooth gradients, broadening applications from signage to display graphics.

The **Anapurna Ciervo H2500** celebrates 20 years of Agfa's trusted Anapurna range, offering speeds up to 59 m<sup>2</sup>/h in Production Mode in a 2.5-meter format. From banners and vinyl to textiles and corrugated substrates, it provides proven versatility for print service providers.

All printers on the booth are driven by the latest version (v7) of Agfa's **Asanti** workflow software. Attendees will be able to learn about the latest features in Asanti, including a sustainability tracker that provides a direct link to advanced carbon calculation tools.

Visitors can also discover the **SpeedSet Orca**, Agfa's B1 inkjet press available with top speeds of up to 11,000 B1 sheets per hour as well as offset-like quality and a wide color gamut. The press can handle an extensive range of substrates including folding cartons, microflute, and paper, and can also be used for Sign & Display applications, marking it as a standout solution compared to other digital presses.

A dedicated area will also present Agfa's synthetic print media **SYNAPS** for durable, creative applications.

Deborah Hutcheson, Director of Business Development at Agfa, added: "At Agfa, we're proud to work closely with our customers to ensure they have the right tools to seize new opportunities and grow their business. At PRINTING United, we look forward to showing how our printers, software, and media combine to deliver the performance and flexibility today's market demands."

**Visit Booth 3166 at Printing United Expo 2025 in Orlando's Orange County**

Convention Center from October 22-24 to experience Agfa's innovations first-hand.
